## Mepaco Manual Library

DOWNLOAD  
MANUALS, PARTS LIST,  
PARTS DRAWINGS  
AND MORE

From Password Protected  
Company / City Folder

NOW ON-LINE! [www.mepaco.net/manual-library](http://www.mepaco.net/manual-library)

We understand that customers need easy and quick access to parts and service information to meet production and maintenance goals.

Since Mepaco's equipment is highly customized by application, we are developing manuals to include all standard options that you can access at any time at [www.mepaco.net/manual-library](http://www.mepaco.net/manual-library). We also will make parts lists, parts and electrical drawings and any other custom addendums available in your password protected customer folder.

There is no cost to customers for digital access to your documents and there is no time limit on storage. Print manuals are available by special request; we partner with a printing agency and drop ship the documents directly to you at the same cost charged to us. Printed manuals have the same information as the files in your folder.

Please direct suggestions or questions about manuals, parts or file navigation to:

### Contact Field Services

Joe Hertel, Manager  
Office: (920) 356-7334  
Cell: (920) 219-2286

### The Mepaco Manual Library

- Password access is given by company name (on your PO) and (ship to) city with a password reset every six months
- Set up maintenance and purchasing team members with password access
- All your equipment parts lists are available at any time in your secure customer/city folder
- Access all Mepaco's product line manuals
- Access to revised manuals with technology updates
- Receive email notifications when new documents are added

### FAQs

#### What kind of access do I have?

Customers have download access only, so files cannot be accidentally deleted.

#### Can past jobs be added to my folder?

We can upload a few past documents to your folder, however entire backdated archives cannot be included at this time.

#### I manage two plant locations, can I have access to both folders?

Yes, communicate that to your sales manager so we can set up your account with special access.

#### Will I continue to receive printed documents or flash drives with the equipment?

No, there is no longer a need to wait for delivery, you can access your documents any time.
